Control Corrective®

Hydration & Ultrasonic Facial

PERFORMING THE PROTOCOL

Pre-Treatment Tip: Add a few drops of sweet orange or lavender essential oil to warm towels to enhance relaxation and create a soothing sensory moment that elevates the client's experience.

Client Consultation: 5 Minutes

STEPS	INSTRUCTIONS
Step 1	Perform a brief skin analysis and review contraindications. Discuss treatment goals and customize the protocol based on the client's needs and skin condition.

Cleanse Phase: 10 Minutes

Step 2 Begin facial cleanse while lightly steaming and warming the skin. Apply **Cucumber Bead Cleanser**, massaging into the face, neck, and décolleté for 1–2 minutes, focusing on areas with makeup or buildup. Remove thoroughly with warm, damp towels.

Step 3 Saturate two cotton pads with **Balancing Tonic** and apply to the entire face, neck, and décolleté.

Ultrasonic Infusion Phase: 10 minutes

Step 4 Apply a generous, even layer of the **Hydrant Stabilizer** to the face, neck, and décolleté to ensure optimal glide and hydration infusion.

Step 5 Using the ultrasonic device:

- Glide slowly upward along the neck and jawline
- Sweep across cheeks toward the temples
- Work the nasolabial folds with controlled lifting motions
- Smooth across the forehead and the brow area
- Reapply **Hydrant Stabilizer** as needed to maintain slip.

Purpose: Boosts hydration delivery, improves skin suppleness, supports barrier function, and enhances overall radiance and treatment results.

Ultrasonic Best Practices

- Always keep skin visibly hydrated with Hydrant Stabilizer
- Slow movements = better penetration and results
- Avoid dragging, reapply slip generously

TREATMENT DURATION:
40 Minutes

$

COST PER TREATMENT:
$4.00 - $5.00

TREATMENT DESCRIPTION

Seasonal transitions, increased sun exposure, and lingering winter dehydration can leave skin feeling tight, uneven, and lackluster. The ***Hydration & Ultrasonic Facial*** is a restorative spring treatment designed to deeply replenish moisture levels, strengthen the skin barrier, and revive natural luminosity through ultrasonic infusion technology, targeted hydration therapy, and gentle enzymatic support. Ideal for seasonal skin reset, post-winter recovery, and maintaining a smooth, supple, radiant complexion.

RECOMMENDED SKIN TYPES

Designed for all skin types, with a focus on dehydrated, dull, and environmentally stressed skin that needs hydration replenishment, barrier reinforcement, and renewed radiance.

EQUIPMENT AND SUPPLIES OVERVIEW

Please have these items available prior to beginning:

- Fan brush
- Bowls
- Warm towels
- Cotton rounds
- Headband
- Gloves
- Ultrasonic Device

Hydration & Ultrasonic Facial

Mask Phase: 10 Minutes

Step 6 Combine the **Sensitive Skin Enzyme Mask** with a small amount of the **Balancing Thermogel Mask** to create a customized treatment blend. Apply evenly to the face, neck, and décolleté with a fan brush. Leave on for 7–10 minutes, then remove with warm towels.

PRO TIP: Perform a shoulder, neck, or scalp massage with the **Hydra Calm Facial Oil** or **Skin Nourishing Balm** while the mask is on to enhance relaxation and overall treatment value.

Hydrate and Moisturize Phase: 10 Minutes

Step 7 Apply 1-2 pumps of the **VitaC Peptide Complex** to your hands, then massage it into the face, neck, and décolleté.

Step 8 Finish the facial with a light application of **Collagen Eye Defense**, **Ceramide Daily Cream**, and **Aroma Matte Day Cream SPF 30** to hydrate, firm, and protect the skin.

PRO TIP: When applying the **Collagen Eye Defense,** perform light tapping motions along the orbital bone and gentle lymphatic presses to de-puff and enhance absorption. This targets fine lines, hydration loss, and fatigue for visibly rejuvenated eyes.
